### Technical and Scientific Research

Project title	Organisation	Department	Applicant	Amount
Breaking Barriers in Scattering Amplitudes: Understanding via Computation (and vice versa)	University of Copenhagen	Niels Bohr Institute	Jacob Bourjaily	kr. 7.390.515
Search for heavy Higgs particles in diboson decays at LHC run II	University of Copenhagen	Niels Bohr Institute	Troels Christian Petersen	kr. 2.075.000
The Villum Kann Rasmussen Annual Award 2017	University of Copenhagen	Niels Bohr Institute	Jens Hjorth	kr. 4.500.000
The Villum Kann Rasmussen Annual Award 2017 - personal stake	University of Copenhagen	Niels Bohr Institute	Jens Hjorth	kr. 500.000
Crossroads for inflation theory: Uncovering the origins of the Universe	University of Southern Denmark	Department of Physics, Chemistry and Pharmacy	Martin S. Sloth	kr. 2.901.780
Analyses of sub-mesoscale frontiers as essential barriers of dispersion for phytoplankton	University of Copenhagen	Natural History Museum of Denmark	Katherine Richardson Christensen	kr. 3.452.727
mISENERP: Evaluation of effects of new selected pressurizers on GENomers Epigenomes an Mikrobiota	University of Copenhagen	Natural History Museum of Denmark	Ludovic Orlando	kr. 5.995.927
Dispersal, differentiation and speciation across barriers and along elevational gradients in island bird communities	University of Copenhagen	Natural History Museum of Denmark	Knud Jønsen	kr. 9.999.971
HiddenRisk - Understanding the impact of human activities on subterranean biodiversity	University of Copenhagen	Natural History Museum of Denmark	Ana Sofia Rebeloira	kr. 7.075.471
Molecular mechanisms behind recognition of extraneous RNA in plants - and connected effects on antiviral immunity	University of Copenhagen	Department of Biology	Peter Brodersen	kr. 5.878.520
Novel Molecular Targets for Beetle Pest Control - From Genome to Phenome	University of Copenhagen	Department of Biology	Kenneth Halberg	kr. 8.490.281
High throughput identification of the microbial world	Aalborg University	Department of Chemistry and Biotechnology	Per Haljær Nielsen	kr. 3.998.530
Extreme resolution Raman-AFM bio-imaging of wood under decay - learning wood protection from trees	University of Copenhagen	Department of Geosciences and Natural Resource Management	Lisbeth Garbrecht Thygesen	kr. 5.268.369
Cycling in the "Plastisphere": the biogeochemical fate of marine (micro)plastics	University of Southern Denmark	Department of Biology	Nicole Rita Elisabeth Posth	kr. 9.746.336
Novel aspects of lanthanide magnetism for quantum information applications	University of Copenhagen	Department of Chemistry	Stergios Piligkos	kr. 4.000.000
Structural characterization of inorganic nanoclusters: Materials chemistry between molecules and solids	University of Copenhagen	Department of Chemistry	Kirsten Marie Ørnsbjerg Jensen	kr. 9.998.048
Exploring the unique chemistry of lanthanide ions - Solution for Technology, Diagnostics and Energy	University of Copenhagen	Department of Chemistry	Thomas Just Sørensen	kr. 9.900.991
Electronic structure up-close with photoemission at the nanoscale	Aarhus University	Science and Technology	Søren Ulstrup	kr. 9.974.962
Dynamics of ballistic nano-conductors: Theory and simulation tools	Technical University of Denmark	DTU Nanotech	Mads Brandtbye	kr. 4.746.819
Origins of cosmic explosions	Aarhus University	Department of Physics and Astronomy	Maximilian Stritzinger	kr. 3.771.145
VILLUM Centre of Excellence - Dirac Materials	Aarhus University	Department of Physics and Astronomy	Philip Hofmann	kr. 33.535.000
Measuring with No Tape	Technical University of Denmark	DTU Compute	Søren Hauberg	kr. 9.719.117
Causal inference with incomplete data	University of Copenhagen	Department of Mathematics	Niels Richard Hansen	kr. 4.827.597
Examination of new world of circular RNA	Aarhus University	INANO	Jørgen Kjems	kr. 5.280.270
Visualization of the Atomic-scale Structure of Catalytic Surfaces in Reactive Atmospheres	Aarhus University	INANO	Jeppe Lauritsen	kr. 5.485.009
Advancing 2D Materials by Synthetic Design	Technical University of Denmark	DTU Department of Chemistry	Kasper Steen Pedersen	kr. 8.569.347
Non-Natural Selection of Carbohydrate-Based Receptors	Technical University of Denmark	DTU Department of Chemistry	Sophie Beeren	kr. 9.998.528
Mid-infrared Siliconic Photonic Chips for Optical Interconnects (Mid-Chip)	Technical University of Denmark	Department of Photonics Engineering	Michael Galli	kr. 5.806.490
Energy-efficient optical communications at 2 micron beyond capacity crunch (2MAC)	Technical University of Denmark	Department of Photonics Engineering	Hao Hu	kr. 10.005.091
Social Recognition and Foraging strategies of Sperm Whale Clans	Aarhus University	Department of Bioscience	Peter Teglbjerg Madsen	kr. 2.714.180
The influence of Earth surface processes on Scandinavian Ice Sheet evolution and collapse	Aarhus University	Department of Geoscience	Vivi Kathrine Pedersen	kr. 7.496.783
Utilization of lipids as an alternative to phosphate fertilizers	University of Copenhagen	Department of Plant and Environmental Sciences	Rosa Laura López Marqués	kr. 2.500.000
Light-driven biosynthesis: Improving photosynthesis by designing and exploring novel electron transfer pathways	University of Copenhagen	Department of Plant and Environmental Sciences	Poul Erik Jensen	kr. 5.134.820
Towards Sustainable Protein Sources for Europe: Biosynthesis and Transport of the Lupin Alkaloids	University of Copenhagen	Department of Plant and Environmental Sciences	Fernando Geu Flores	kr. 9.996.017
Extension of nitrogen cycle: Diversity and ecology of Commoxomb bacteria	Technical University of Denmark	DTU Environment	Barth Smets	kr. 5.319.694
T-RAYS - Chipscale integrated terahertz phased array sources	Aarhus University	Department of Engineering	Martijn Heck	kr. 5.955.415
Mechanical and photo-chemical stabilization of flexible organic solar cells	University of Southern Denmark	The Mads Clausen Institute	Morten Madsen	kr. 5.991.250
Controlling of quantum mechanical oscillators with non-classical light	Technical University of Denmark	Department of Physics	Ulrik Lund Andersen	kr. 7.016.303
Mechanic properties of glass: Causes and development	Aalborg University	Department of Chemistry and Bioscience	Morten M. Smedskjær	kr. 10.034.313
Deciphering the role of microbial dark matter by novel DNA sequencing approaches	Aalborg University	Department of Chemistry and Bioscience	Esas Albersen	kr. 2.990.381
Guarded Hemotopy Type Theory	Aarhus University	Department of Computer Science	Lars Birkeedal	kr. 3.282.896
Will the Three-Wave Interaction Prevent the Fusion Dream?	Technical University of Denmark	DTU-Physics	Stefan Kragh Nielsen	kr. 7.846.488
VILLUM Center for Science of Sustainable Fuels and Chemicals	Technical University of Denmark	DTU-Physics	Ib Chorkendorff	kr. 150.000.000
LEAPS - Learning and Engagement through Authentic Projects with Science enhanced Engineering at school - technological preparation and education	KATA Foundation		Peter Skat-Rørdam	kr. 4.000.000
ATV's Science and Engineering Project	Engineer the Future		Ghita Wolf Andreasen	kr. 10.000.000
	The Danish Academy of Technical Sciences (ATV)		Lia Lefland	kr. 5.000.000

### Technical and Scientific Research in total (46 grants)
